

The Matific Math League 2022

World's biggest online mathematics competition for
primary school students

23 Nov - 6 Dec

Everything
you need to
know

Registration

Visit matific.com/mml to register your school / class for the competition, or write to us at mathleague@matific.com

Important Dates

Registration

8 Sep - 20 Nov 2022

Practice

10 Oct - 10 Nov 2022

Competition

23 Nov - 6 Dec 2022

Post Registration

Once your school is registered, your Matific account manager will email you the login details of all your students and teachers. If you have current paid licences with Matific there is nothing further you need to do.

Teachers and students will have full access to Matific from the day their account is created till 20 Dec 2022.

Encourage your students to complete Matific's **Placement Test** before the competition.

What is a Placement Test?

It's a 20-min test to help determine your student's level and determine best set of learning path / activities for them in the Adventure Island. All students will get a Placement test, (also known as the Pilot Training) when they access Adventure Island for the first time.

2 Weeks Before the Competition

A notification about the competition schedule will appear in the students and teachers account 2 weeks before the start of the competition.

Competition Day and After

Students

- ✓ Students can log in to their Matific account, go to **the Adventure Island** and start playing activities.
- ✓ During the competition period, students can log in and log out as many times and anytime.
- ✓ Each student has a target of 600 stars to collect until the end of the competition.
- ✓ There's no limit to the number of times an activity can be attempted, but only the attempt which gets maximum star will be added to the competition total.

Go to The Adventure Island

Complete activities to earn stars

Things to note:

Students can continue to play even after they have collected 600 stars, but the stars will not be added to their competition total.

Stars from maths activities completed outside of Adventure Island, Arena & Assigned Work will not be added to the competition total.

Teachers

- ✓ Teachers can log in to their Matific dashboard and see Student and Class leaderboard.
 - **National level:** Teacher can view their class and students percentile
 - **School level:** Teacher can view their students' rank at both school and year level
- ✓ You can also visit matific.com/olympiad-leaderboard our public leaderboard to view top 100 schools in the competition

How is Rank Calculated

School

The ranking is based on the achievements of a school's students out of the target goal.

Every student has a goal of 600 stars to achieve.

We look at the stars achieved for the active students divided by the goal of those students (or 50% of students, whichever is higher).

The accuracy of participants is used in tie-breaking situations.

School Target

- ✔ If active students in your school < 50% of your TOTAL students, then Total Target Stars = 50% of TOTAL students in school * individual student target goal
- ✔ If active students in your school >= 50% of your TOTAL students, then Total Target Stars = No. of active students * individual student target goal

Why only 50% of students are used for the calculation?

We understand that every school has timetable challenges, inactive or duplicate accounts, and other complications - we only count the top 50% to allow for this.

Class and Students

National level: There's no rank for class or student for the competition. Instead we have percentile and the percentile calculation logic is the same as the one used for schools.

School level: Teachers can view their class and students rank at their own school and class level in the teacher dashboard.

School

Exclusive rewards for **top 100 schools** of India

*Prize money will be given in the form of Amazon voucher or equivalent of it

⚠ Note: A school needs to have a minimum of 50 participating students to qualify for prize in the School category.

Students

All students get certificates and top 3 students from top 100 schools gets a special Matific gift.
